## About This Game

- Please note you need VR to create & build, but can explore & chat with just mouse and keyboard. -

Anyland is an open virtual reality universe to create your home, chat with others, explore & live in! Made from the ground up for VR, and shaped by all of us together. A blank canvas for your imagination with no predefined stories and themes... it's up to all of us together to invent the world. Build, script, share, collect, meet friends, have parties, play games, watch videos, explore areas, and make history in a new reality!
